

HEALTH GUARANTEE

Longhorn Cavaliers wants you to be completely satisfied with the purchase of your new puppy. Therefore, you will receive the following guarantee with your puppy. You will receive 48 hours guarantee on the health of your puppy, beginning on the date you receive your puppy. This guarantee is for infectious diseases such as parvo, distemper, etc.. Parasites and menial sickness are excluded from this guarantee as they can be difficult to diagnose. Prior to receiving your puppy, he/she will be taken to the vet for a complete checkup with all age appropriate shots and deworming. I recommend you do a follow p with your vet within the first 72 hours (at buyers expense). No vet bills or medications will be paid for by Longhorn Cavaliers unless agreed upon, case by case basis. If for some reason your puppy dies within the first 48 hours of the time you receive your puppy you must have it diagnosed by a veterinarian and overnight, it back to the seller so that our vet can perform an autopsy. I understand that this sounds very insensitive, but we do not have control over the puppy once it leaves. Parvo, getting hit by a car, being dropped, or any accident can happen, and we must protect ourselves. Longhorn Cavaliers cannot guarantee and puppy against illness after puppy leaves sellers care. At our home we clean 2x a day, deworm biweekly, supplement, and have at least 2 vet appointments. We promise that we do everything we can to ensure you that you will receive a healthy puppy.

SHIPPED /TRANSPORTED PUPPIES ONLY: If you are having your puppy shipped, please be aware that your puppy may be exposed to all diseases and parasites. This is a risk taken if you choose to have your puppy shipped. If a diagnosis of sickness is made, contact us immediately. We must agree to all medicine and veterinarian care otherwise the buyer will be responsible for all charges.

You are receiving a One-year hereditary guarantee beginning on the purchase date of the puppy. The guarantee is for life threatening congenital defect such as MVD heart disease, lung disease, and liver failure. Seller requires that your puppy be diagnosed by two different veterinary hospitals before a replacement of another puppy is issued, Any puppy with the above conditions will be replaced on these conditions: The replacement will be the same sex, breed, and dollar value. If a replacement puppy is not available at the time, we promise to provide one as soon as it becomes available. If the original puppy is still alive and the buyer wishes to keep the puppy then the replacement puppy will be voided. The seller has one week from the date we are notified to return puppy at buyers cost. There will be no cash refunds for puppies, shipping, or buyer bills. Shots, deworming must be kept up to date with records or this agreement is NULL and VOID. No veterinary bills incurred after puppy leaves sellers care will be paid for by Longhorn Cavaliers.

It is very important to keep your puppy on a good puppy food and vitamins. Also, get your puppy set up on a good vaccination and deworming schedule with your vet that will best suit your puppies needs. We would love to stay in touch and are here for support! We hope you enjoy your new puppy!
